# PATRICK MEIGHAN

---

## BIO

Patrick Meighan (born 1984 Whitehaven, UK) is a visual artist living on the ancestral lands of the Musqueam, Tsleil-Waututh and Squamish people, currently painting with acrylic and gouache and working with fabric sculpture.

Patrick's current practice reflects a love of colour, form, patterns and systems which he has created and continues to explore. Working from an initial appreciation of drapery and the shapes made when pleating fabric, Patrick has developed a style which has moved away from representation and into abstraction.
